

## 2015-02-15: UT-Link version 1.1 *(first public release)*

### **Minimum System Requirements**

PC or tablet	Sonatest Instrument to link
<ul style="list-style-type: none"><li>• Operating System:<ul style="list-style-type: none"><li>○ Windows 7 and 8 (32 and 64 bits)</li></ul></li><li>• System Memory:<ul style="list-style-type: none"><li>○ 4GB Ram Recommended</li></ul></li><li>• Free Disk Space:<ul style="list-style-type: none"><li>○ 200MB of Free Disk Space</li></ul></li></ul>	

### **Important information and recommendations**

- Alpha-numeric values (ex. when recoding a file name) have to be entered using a standard or virtual keyboard.
- Refresh rate is based on network performances and VNC technology, images may appear faster on the instrument than on the PC or tablet.

### **New features**

- No new feature in this release.

### **Fixed**

- Add "Press F11 to exit full screen mode"
- Add "Click here for full screen mode (F11)"
- Installation directory changed to ""Program Files (x86)\Sonatest Limited\utlink"
- Installer prompt to install ""C++ Redistributable Package""
- Major stability fix (no crash known as of today, changed to a mono thread application)
- Support of numeric keypad
- Support of dual screen operation (main window of viewing area)
- In windowed mode, if you click in the box below, so the X, it maximizes the window (because of the message "press F11 to minimize" is not displayed but the area is still active to maximize the window.
- When using the maximize button with a second screen, the next F11 will restore the screen outside of the 2 screens. The application need to be close and reopen. As a possible work around, it does not happen with the F11 key.
- Save favorite in a directory that does not require administrative rights

- Installer does not need to be ran with administrative rights
- Report disconnected state in FPS field
- New set of icons
- Led emulation with mouse
- 1280x720 is truncated correctly

## 2014-09-17: UT-Link version 1.0

- Initial release for first beta users.
